I heard an angel whisper
So softly in my ear
I couldn't hear the words but message came in loud
and clear
Who wrote the book of love
Calling anyone who knows
The things it makes you do are unexplainable

What can I do
What can I say
Don't say it's too late
Oh, no

I believe, that you can take this broken heart
And give it all the love you've got
And take the pain away
Then I'll be yours forever
I believe, that even if we're far apart
You'll always be there in my heart
To brighten up my day
'Cause we belong together I believe

Well I don't know what happened
It was just destiny
But now I want you back
Lyin' right here next to me

Your body glistening
With sweat from love so hot
So are you listening
To the things I talkin' 'bout
What can I do
What can i say
Don't say it's too late
Oh, no

I believe, that you can take this broken heart
And give it all the love you've got
And take the pain away
Then I'll be yours forever
I believe, that even if we're far apart
You'll always be there in my heart

To brighten up my day
'Cause we belong together I believe

A change is gonna come
If you just let me trough
I think I'm in love with you
I know I'm in love with you

I believe, that you can take this broken heart
And give it all the love you've got
And take the pain away
Then I'll be yours forever
I believe, that even if we're far apart
You'll always be there in my heart
To brighten up my day
'Cause we belong together I believe
