What is that you are pointing at me?
It might go off, does me injury
Is that thing loaded? (Loaded, loaded, loaded)
Is that thing loaded? (Loaded, loaded, loaded)
I know I have seen you before
And I admit I'd like to see more
Is that thing loaded? (Loaded, loaded, loaded)
Is that thing loaded? (Loaded, loaded, loaded)
I wanna see your hands, your cards, what goes through
your head
I gotta know if you pose that much of a threat
Get down on your knees, say "pretty please"
Then maybe, baby, I'll consider
Get down on your knees, say "pretty please"
And I'll surrender, surrender, surrender
What is that you are pointing at me?
It's interesting but a little scary
Is that thing loaded? (Loaded, loaded, loaded)
Is that thing loaded? (Loaded, loaded, loaded)
I wanna see your hands, your cards, what goes through
your head
I gotta know if you pose that much of a threat
Get down on your knees, say "pretty please"
Then maybe, baby, I'll consider
Get down on your knees, say "pretty please"
And I'll surrender, surrender, surrender
(What is that?)
(Is that thing loaded?)
Is that thing loaded?
Yeah!
Get down on your knees, say "pretty please"
Then maybe, baby, I'll consider
Get down on your knees, say "pretty please"
And I'll surrender, surrender, surrender
Get down on your knees, say "pretty please"
Then maybe, baby, I'll consider
Get down on your knees, say "pretty please"
And I'll surrender, surrender, surrender!
