Don't wanna be the one to pop your cherry, girl
Just jump a train that will bring you back to mama's side

Knock on, knock on
Knock on the sky
You keep on knockin' better ask yourself why
Knock on, knock on
Buyin' a one way ticket out of your mind
Knock on, knock on
Knock on the sky
You keep on knockin' better ask yourself why

You keep on pushin' and you will see my chilly yellow
eyes
Only one more time

Don't wanna get your teddy bear mad at me, girl
So get your pretty slippers on and dance out of here,
now

Knock on, knock on
Knock on the sky
You keep on knockin' better ask yourself why
Knock on, knock on
Be happy living in your nuclear life
Knock on, knock on
Knock on the sky
You keep on knockin' better ask yourself why

You keep pushin' and you will feel my frozen beastly
bite
Only one more time

Pushing the sky
