I need words
As wide as sky
I need a language large as
This longing inside
And I need a voice
Bigger than mine
And I need a song to sing you
That I've yet to find
I need you, oh
I need you
I need you, oh
I need you
To be here now
To be here now
To hear me now
To hear me now
God of wrath
God of love
God of Earth
And God above
God of hope
God of peace
God of you
And God of me
My love for You
My heart for You
My life for You
All I am for You
Blood through my veins for You
I give my world to You
All I am and all I have
I lay it down for You
Dancing 'round with You
Spinning 'round with You
Laughing loud with You
My love
