Visit "[Meet New Friends](#)" on MotoLyrics.com

Make up your mind and don't waste your time
You've been so unkind, you know all of the words
Feels good to hold on
Take time off and get things done

Get out, meet new friends
Tell your girl that she's the one
Get out, well, there's nothing cool about it
If there ever was I doubt it

You should find pleasure abounding
From the only place I found it
Take time off and get things done
Get out meet new friends
Tell your girl that she's the one
Get out

We can see the future lately
I've been lost without you baby
Even when I'm taking to someone, I am alone
Make up your mind and don't waste your time
You've been so unkind
