Details of your look, like your touch
Killing me by shoot, just in once
Let me look at you with your cries
Since the days of school, you and I

You are my way..
You did the hook, you did right
Shiny as a jewel, with your tie
Oh see, just take a look on the edge

See darling the moon, on the sand
You are my way..
Just let me play..
Just let me play..

Details of your look, like your touch
Killing me by shoot, just in once
Let me look at you with your cries
Since the days of school, you and I

You are my way..
Just let me play..
Just let me play..
