How does it feel to know you're a loser?  
In a world that's full of misery and pain  
There's a feeling inside  
Coz you know you can't decide  
You can't control it but it'll drive you insane

In the end you were part of the solution  
And it's all because of the things they made you learn  
You've got no place else to hide  
And nobody on your side  
To help you carry on your burden called the world

Your always gonna be  
Just a distant memory  
It's time for you to see

This is never gonna end  
Never wanna see your face again  
My number one enemy

I hope one day you stop to notice  
All the time that you never heard me call  
Now your paying for the things you never did  
It's amazing how I never heard you call

Sometimes I find it so distracting  
That I know your out there waiting for us to fail  
This is none of your concern  
And I know one day you'll learn  
Second chances always live to tell the tale

Your always gonna be  
Just a distant memory  
It's time for you to see

I'm always gonna be one step ahead  
Never will forget a word you said  
My number one enemy

How does it feel to know you're a loser?  
In a world full of misery and pain

You took him away  
This is all I have to say  
I hope you can finally see

Your never gonna bring us down  
So why don't you stand and tell us how  
Your our number one enemy

Your always gonna be  
Just a distant memory  
It's time for you to see

Why don't you stand and take a bow  
You can tell everybody how  
Your my number one enemy
