

Second Chances "Season"

Visit "[Season](#)" on MotoLyrics.com

We could climb forever
And never reach the top of the world
But that doesn't mean we shouldn't try
Hold my heart in your hands
I thought you were going to break me
And I thought that this was the end
But this season's changing me
I see you now
All alone and waiting for me
I need you now
And I mean this more than ever
We could climb forever
But we've already made it to the top
But we don't have to stop there
Hold my heart in your hands
I know that we still have forever
And I know it's not the end
'Cause this season's changed me
I see you now
All alone and waiting for me
I need you now
And I mean this more than ever
