Hear my
Bleeding heart:
The first to leave was the thunder
Long eight years were enough
Who can follow you?
The next one's for each a wonder
His words you can hear now
Try to understand
All success - what worth now?
Going on - tell me how
Perception seems so clear
But there's fear
Chorus:
The wall of sorrow keeps us asunder
So we got times of tears
No power to hold
No strength for a friend
Some hearts are in deep depression
Love's butterfly's dying
Is this divine proof?
The music is fading
Slowly
If reality calls us
Heavy metal's end?
Reaching for a higher aim
We will not be the same
Our union - shivering
Shall we sing?
Chorus
Life's meaning - what worth now?
Going on - tell me how
Reaching for a higher aim
We will not be the same
