

## Secrecy "Inside You"

Visit "[Inside You](#)" on [MotoLyrics.com](https://MotoLyrics.com)

You turn your back from right to wrong  
You realize dreams and hopes are long gone  
Longing for the days that once had been  
You socialise with fantasy and other dreams

Inside you're searching  
Aiming to master the vile  
Hatred is that what's  
Inside you

Gazing at stars of the night  
You realize, there's no path to the right  
Do you understand that it's yourself  
And no one else who reaches what you want  
Inside you, inside you

Inside you're searching  
Aiming to master the vile  
Hatred is that what's  
Inside you, you, you

Inside you're searching  
Aiming to master the vile  
Hatred is that what's  
Inside you, you, you
