do you know the silence
this little thing
it's like a rare bird
who's not allowed to sing.
if you wanna hear the bird you have to go far.
but you are just a stupid fucker who geos there by car.

Ref.:

up on a mountain or in a cave
you can hear the bird sing you can feel save

but this dying-out bird cannot feel save
neither on a mountain nor in such a cave

oh lovely silence
please don't die away
in this world of stress and noise
I need you - so come on stay
I piss on my noisegate - it doesn't work
so come on silence stay for a flirt.
