Iâ€™m the one that youâ€™ve been looking for
Iâ€™m fresh, I'm cool and affective
Iâ€™m the one that will help you through
Iâ€™ll turn you active
Iâ€™ll solve your problems, will be your friend
Iâ€™ll be the solution
Cos if you kiss me itâ€™s too beautiful
itâ€™s like an illusion

Than you love me one more time
I already caught you - you are mine
You can never get away

The show goes on and we both know that weâ€™ve been
made to be together
Our love is like eternity and everyday itâ€™s getting
better
Weâ€™re loving us more frequently and I know that you
like that
Orgasms get more intensive, sometimes you feel kind
of frightened
Than you love me one more time
I already caught you - you are mine
You can never get away

I donâ€™t know how that will go on
Itâ€™s the show that you turned on
Iâ€™m obsessed of you and I
Enjoy the sex with you every time

Every time.....oh no-no-no!!!!

Give it to me, what I wanna be
Give me a brain, turn me back sane
Give me security until eternity
Itâ€™s just like a game and thereâ€™s no-one to blame

Than you rape me on more time
you know that I really donâ€™t feel fine
but you donâ€™t want to get away
