prepare myself for death - it's coming soon  
from all the drugs this vision: a bloody moon  
you dayly rape my mind - d'you think it's nice?  
I just stare at you creeps wait to cut out your eyes

I feel all the pain  
and they tell me that I'm insane  
I'm sick of what they do

I'll be released really soon  
insane

I wish to lick your blood that might be insane  
my face shows no emotions I want to enjoy your pain  
you say my fucking end is near?  
in fact I'm unborn - just a nightmare? - let's see
