Well, it's none for sorrow and none for joy  
Oh, meet me in the middle  
Nothing hurts a concrete boy  
So meet me in the middle

Run these feelings out of town  
Then come meet me in the middle  
If it doesn't go up, well, it won't come down  
So meet me in the middle

Bullet proof and tough as hell  
Out in the pouring rain I will stand  
But I miss my old heart that bruised so well when I was  
a younger man

So nail my colours to the floor  
Then come meet me in the middle  
Oh, what the hell's today been for?  
So meet the middle

Bullet proof and tough as hell  
Out in the pouring rain I will stand  
But I miss my old heart that bruised so well when I was  
a younger man

So it's none for sorrow, none for joy  
Oh, meet me in the middle  
Nothing hurts a concrete boy  
So meet me in the middle  
Oh, meet me in the middle
