### "Pour A Little Poison"

Visit "[Pour A Little Poison](#)" on [MotoLyrics.com](http://MotoLyrics.com)

I went out to make some money cause I've got no  
shame

Pour a little poison into my good name  
Down the Caolina fi you are pouring the rain  
Pour a little poison into my good name

Pour a little poison into my good name  
Well the rain came down and it took my shoose and  
...little English boy singing the blues  
I got to hit a problem that I 'aint gonna fix 'em when 'm  
staring at the walls inside the motel six  
Then I'm stormin in the Georgia like an midnight train  
Pour a little poison into my good name  
Maryland will nnever take me back again  
Pour a little poison into my good name  
Just pour a little poison into my good name  
The rain keeps falling every where I go  
And got nobody but the voices on the radio  
I shake the dust of every sleepy little, little town  
Then I'll be crying like a louser when the sun goes down  
It's all that I can do to try get home safe  
Pour a little poison into my good name  
Tonight I'm not dancing and they'll be glad I came  
Pour a little poison into my good name  
Just pour a little poison into my good name  
Well the rain came down and it took my shoose and  
...little English boy singing the blues  
I got to hit a problem that I 'aint gonna fix 'em when 'm  
staring at the walls inside the motel six  
Then I'm stormin in the Georgia like an midnight train  
Pour a little poison into my good name  
Maryland will nnever take me back again  
Pour a little poison into my good name  
Just pour a little poison into my good name  
Pour a little poison into my good name  
Just pour a little poison into my good name
