

Secrets Kept In Suicide "Shine Or Die"

Visit "[Shine Or Die](#)" on MotoLyrics.com

We are just following the dreams we shared when we
were blossoming.
Never look back to see what we used to be.

You save yourself, that's how I know that you never
believed in us.

All of this fighting and confusion brings out the worst in
us.
Never look back to see what we used to be.

All we are is what you hated, think of the things that
made me famous.
You always try to bring me down at the worst times,
Worst of times.

As I am wandering down this path alone as I am
wandering.
I try to look back too see what's real in me.

You save yourself, that's how I know that you never
believed in us.

We are just following the dreams we shared when we
were first starting.
I try to look back to see what's really me.

Every time, every time...
