In the beginning your love was true and I gave to you  
My inner emotions, yo, I was a slave to you  
If time can heal all wounds then I feel one  
The path of the broken heart is what we'll run  
You treat me fine, so you say, if I walk away  
I'm justified 'cause I cried each and every day  
We used to talk, hold hands for a long walk  
Stretch on the beach for tans on the broad cold  
Call me up late at night for a small kiss  
The movies, the mall, it ain't easy being dissed  
You love me but time can change in a big way  
The deck is strong but the hull, it'll give way  
You used to give the best to me, come next to me  
Take some for self and give all the rest to me  
But that's dwindled, I sit by the window  
Hope for the rain to stop and get rekindled  
Love to us at first reinforced it  
But now when I call you sound like you lost it  
If this is true then I say this to you  
Tell me what to do, do...

Our love is breaking down, oooh yeah  
Our love affair is crumbling down  
Our love is breaking down, oooh yeah  
Our true love is finally coming to it's end

I get to the point sometimes when I think back  
You don't really love me, nah, I shouldn't think that  
Friends they rif and say that you'll diss me  
A week's gone by and you don't even miss me  
So if I tell you what I feel you gotta tell me if it's real  
You're breaking down my heart and tearing me apart,  
and I appeal  
For you to stop and notice me and get very close to me  
You used to be my one and only, now you're a ghost to  
me  
Although my love will never stop, I think we're headed  
for a drop  
You used to take me out a lot, buy me flowers in a pot  
Twenty five forget-me-nots going to the malt shop  
Sharing everything we got, tell me why you changed  
the plot

You don't even come  
Or put a coin in the slot, like a fish that is baiting, I'm  
tired of waiting  
You said you would meet me at six, now it's eight and  
I'm tired of crying  
Hurt intensifying, the romance's shy, I'm trying and  
sighing and dying

Our love is breaking down, oooh yeah  
Our love affair is crumbling down  
Our love is breaking down, oooh yeah  
Our true love is finally coming to it's end

Our love is breaking down, oooh yeah  
Our love affair is crumbling down  
Our love is breaking down, oooh yeah  
Our true love is finally coming to it's end

(Our love is breaking down) You used to be so sweet to  
me  
(Our love is breaking down) We used to be so happy  
(Our love is breaking down) A better love could not be  
found  
(Our love is breaking down) But now our love is  
breaking down

The love I found you put me down  
You lost me, you cost me, a whole bunch of time, now  
you boss me around  
It's rainy, it's sunny, my eyeballs are runny  
I'm just like your money, you break me and honey  
You come back to score like a ship with a shore  
And therefore I can't take it no more  
Together, tougher than leather, through any kind of  
weather  
And I never thought that it would sever  
Or come to this, I try to miss but I don't see you enough  
Or let alone get a kiss  
I'd like to grace the place you ace hang out or embrace  
So I could suck your face and get a taste  
Sometimes I state 'em and often hate 'em  
But our love has come to this an ultimatum  
I'm not your superwoman just assuming  
That you will come home and caress me, I'm human  
sweetheart  
I'm tender up and surrender  
I don't wanna go out like this but I'm the best in this  
gender  
My love is forsaken, my heartbeat is shaken  
I'm not gonna make it and no, I can't fake it  
So love me or leave me but don't disbelieve me

Accept me, reject me but don't disrespect me  
So get it together so we can exist and reminisce bliss,  
bliss

Our love is breaking down, ooh yeah  
Our love affair is crumbling down  
Our love is breaking down, ooh yeah  
Our true love is finally coming to it's end
