It takes 2, it takes 2, me & you

It takes 2 to make a thing go right  
It takes 2 to make it out of sight

From the start it's plain to see  
You're suffering from a serious broken heart,  
You know that it's a shame  
But I'm here to ease your pain  
There's no need for you to feel so all alone  
When you and I could seriously  
Be a sure enough happening thing

Do you know that  
It takes 2 to make a thing go right  
It takes 2 to make it out of sight

I can see it in your eyes  
You feel the same way I feel about you  
Some call it chemistry  
I call it you should be with me  
Cause I know together we can really turn this mother  
out  
In my mind there is no doubt  
That one & one equals me & you

Don't you know that it takes 2

Two to make it right

I don't believe in fairy tales  
But I believe some things were meant to be  
Why should we be alone  
When we could have each others arms to hold  
I know together we could really turn this mother out  
In my mind there is no doubt  
That one & one equals me & you

Don't you know that it takes 2
