Deep in the night
{Far off the light}
Missing my headache
Visions of light
{Sweeter delight}
Kissin' my Loveache
How come I must know
Where obsession needs to go?
How come I must know
Where the passion hides it's feelings?
How come I must know
Where obsession needs to go?
How come I must know
The direction of relieving?
Deep in the night
{Far off the light}
Missing my headache
Visions of light
{Sweeter delight}
Kissin' my Loveache
How come I must know
Where obsession needs to go?
How come I must know
Where the passion hides it's feelings?
How come I must know
Where obsession needs to go?
How come I must know
The direction of relieving?
Missing my headache
Kissin' my Loveache
How come I must know
Where obsession needs to go?
How come I must know
The direction of revealing?
