Oodoop (stidamalood)?

Yo yo

Same thing on the scene we never changing on the  
street really ain't that

Much

Fiending and I'm craving for the freedom of creativity  
that comes

From escaping into being undertaking the allegiance  
down under

And the way these lyrics be leaving you

Take you to a realm of astounding wonder

On the threshold of a less known way to get goin on a  
super rhyme style

Highway

Window let em see there to appear but I really don't  
care I'm a do this my

Way

Today find a new way to play with a few cadences I'm a  
parlay

This space and I'll still pace wait til the verses reveal  
they self then

I'm on my way

Many thoughts I'll lay

Many me cloned

MC's talk but they all are sayin

The exact same thing

The exact same things

And the exact same way

And I wanna take a nap when I'm hearin that crap

Just getting on past his pay

I'm a make a new path through the math

Let's see how it sounds when I rap this way

Keep travellin'

Oodoop stidamalood [x8]

All aboard

Do it like it's never been done

Or at least try to come

With enunciation

Just tryin to have fun  
With a travellin hunt  
For the style that you want to call forth  
Take it farther  
Why do you stall  
I can see through all of your walls  
In a box no longer got no limitations restraints or  
pauses at all  
I have one destination called far  
If you listen close it could alter  
Your perception of what you think dope is  
I'm a free mind and will leave you incarcerated  
All sedated  
Get a clear mind when the fog is faded  
In the days of the sleep we all awaken  
Maybe then you could check out what I saw  
And keep on travellin...

Keep travellin  
Oodoo stidamalood [x8]

Oodoo stidamalood  
19 miles ahead of your thoughts  
Best mic skills better your  
Hear I come, ready or not  
Been there, done that  
Before blast off just ready to launch  
E2M settin it off  
Gettin it on  
Just spittin  
And hittin you all with  
Vision and always  
Shittin on all your limits  
And laws

Keep travellin  
Oodoo stidamalood [x2]

Keep venom in ya'll  
Just keepin me going

For us too much just isn't enough

Too much just isn't enough... [x8]

Ba ba ba ba ba ba ba
