A wasteless girl, all over town
You found something in me no man has ever found
Alone and lost with no pride
You gave me strength enough to hold my head up high
Can't you see that I cherish you in each and everything
you do,

I had reached a dead-end street
You came along and paved a brand new road for me
An orphan child with no home you gave me love as
though I was your very own
Honey, that's how I feel about ya, hate to think what I'd
do without you,

Chorus,
What would I do without you baby,, what would you do
without me,
If we didn't love each other this way, (tell me what
would life be,
tell me,, tell me,)

Come what may, I'll get thru, I won't be afraid as long
as I have you
Other loves tempting me I'll just close my eyes and,
oh, you're all I'll see
There's a plain and simple boy and girl
Together we'll make it, tell this world,

Chorus,
What would I do without you baby,, what would you do
without me,
If we didn't love each other this way,
(tell me, tell me, baby , yeah , what would life be,)

What would I do without you baby,, what would you do
without me,
If we didn't love each other this way, tell me what would
life be,

What would I do without you baby,, (I wanna know
now,)

what would you do without me,
If we didn't love each other this way, tell me what would
life be,

What would I do without you baby,, what would you do
without me,
If we didn't love each other this way, tell me what would
life be,
