I broke a promise now
So I'm Less of a man
I'll try to remember how
So try, forget if you can
Now wash the sheets and tear my face right down off
all the walls
Now wash the sheets and tear my face right down off
all the walls
Now wash the sheets and tear my face right down off
all the walls
Now wash the sheets and tear my face...

Come on and call on me
I want to let you down
Come on and call on me
I wanna see you right now
I never wanted to bleed you
Never wanted your hand
Come on and call on me dear

I know that decadence
Defiles what I am
I know that innocence
Decides what I am
I wanna feel this pain again before I fade away
I wanna feel this pain again before I fade away
I wanna feel this pain again before I fade away
I wanna feel this pain again

Come on and call on me
I want to let you down

Come on and call on me
I wanna see you right now
I never wanted to bleed you
Never wanted your hand
Come on and call on me dear

And now I understand
This sufferings everywhere
There's so much left to learn

Come on and call on me
I want to let you down
Come on and call on me
I wanna see you right now
I never wanted to bleed you
Never wanted your hand
Come on and call on me
I wanna let you down
Come on and call on me
I wanna let you down
Come on and call on me
I wanna let you down
Come on and call on me
I wanna let you down
Come on and call on me dear

And now I understand
There's not much left for me here
I guess it's over now
There's so much left to pay
There's so much left to pay
There's so much left to pay
There's so much left to pay
