"Left For Dead"

Though everything I am will never be your bore
And no one's going to get my place
?
I'm never yours
And no one's going to get my place.

She passed around again
?
And no one's going to get my place
You can't believe in the love around you
If you can't discover, you can't recover
You can't believe in the love around you
If you can't recover, you can't discover, now
Can't believe in the one you left for dead, no
(Oh, yeah.)

Though everything I am will never be your bore
And no one's going to get my place
?
I'm never yours
And no one's going to get my place.

She passed around again
?
And no one's going to get my place
You can't believe in the love around you
If you can't discover, you can't recover
You can't believe in the love around you
If you can't recover, you can't discover, now
Can't believe in the one you left for dead, now.
(Oh, yeah.)
