Dear Seether fans,

if you send the lyrics for broken in...make sure there is a correction, make sure the correction is actually correct, and make sure its the right song

people constantly send in lyrics for the amy lee version, not realising the way i have it for just seether (NO AMY LEE) is the way it is on both CDs

when correcting please point out the correction...i get the same thing that i have up there all the time..no difference

please i recommend each of you pick up a copy of disclaimer II so you can hear that the lyrics i have up there are the right lyrics, 2 versions of the song on one CD

so thats all im saying, make sure your sending the right version or it gets deleted, make sure theres a correction or it gets deleted, and make sure you havent made mistakes or i laugh at you...then it gets deleted...thanks for taking an interest and reading this rant

Sincerely,
Anthony aka fishmunky
