Good times and bad times
I can count on being with you
I thank you for staying so true
My life will go on a long time
Have to catch up when I see you
And you are the reason I can make it through

I will give my word that I will come in time to rescue
My heart will always be with you
I'm so glad that I met you, being with me whenever
We're made for each other forever

I know life can be tough on you time and time again
Laughter may be gone away
I will wipe away my tears tomorrow
Life must go on
That's the reason that you travel away

I will be there when you need me
And I know you'll do the same
I can see you, I can hear you in my heart
You will be here if I need you
I will never have to guess
'Cuz we are very special friends

[Instrumental]

So send me a letter, let me know how you're doing
You are my lifetime and true friend
We will never be forgotten
Having trust is all we may need
You are always with me in the life I lead

So far, far away from life I used to know
The worries are too far, too
I will stop and close my eyes, remember
And at the rainbow I can take you, I will catch it for you

Memories you can recall with me any time of day
You can reach out, you can ask me with your soul
I will answer when you call me
I will come no matter how

'Cuz we are very special friends

Just like a river that flows
Just like the stars in the dark night
Lead me in the storm
Lead me in the dark
You are the light of my life

I will be there when you need me
And I know you'll do the same
I can see you, I can hear you in my heart
You will be here if I need you
I will never have to guess
'Cuz we are very special friends

Memories you can recall with me any time of day
You can reach out, You can ask me with your soul
I will answer when you call me, I will come no matter
how
'Cause we are very special friends

Ahhh...
Ahhh...
