Thunder, rain, and lightning
Danger, water rising
Clamor, sirens wailing
It's such a bad sign

Shadows, dark creatures
Steal clouds floating in the air
People run for shelter
What's gonna happen to us?

All the steps we take
All the moves we make
All the pain at stake
I see the chaos for everyone
Who are we
What can we do?

You and I are the same in the way that
We all have our own styles that we won't change
Your's is filled with evil, and mine is not
There is no way I can lose

Can't hold on much longer
(But I will never let go)
I know it's a one way track
(Tell me now how long this will last)
I'm not gonna think this way
(Nor will I count on others)
Close my eyes and feel it burn
(Now I see what I've gotta do)
Open your heart it's gonna be alright

Ancient city blazing
Shadows keep attacking
Little children crying
Confusion, hopeless anger

I don't know what it can be
But you drive me crazy
All your cunning tricks make me sick
You won't have it your own way

Can't hold on much longer
(But I will never let go)
I know it's a one way track
(Tell me now how long this will last)
I'm not gonna think this way
(Nor will I count on others)
Close my eyes and feel it burn
(Now I see what I've gotta do)
Open your heart and you will see!

(guitar solo)

If it won't stop
There will be no future for us
It's heart's tied down
By all the hate, gotta set it free

I know it's a one way track
(Tell me now how long this will last)
Close my eyes and feel it burn
(Now I see what I've gotta do)
Open your heart dude

Can't hold on much longer
(But I will never let go)
I know it's a one way track
(Tell me now how long this will last)
I'm not gonna think this way
(Nor will I count on others)
Close my eyes and feel it burn
(Now I see what I've gotta do)
Open your heart it's gonna be alright!
