It's your main man Knuckles
And we're in Meteor Herd
You ready to go in space?
Help me get the Emeralds

Took a shuttle to space and left from our home
At least we're with friends and I'm not all alone
Bad thing was that the Emeralds spilled
Gotta search space, man, time to get ill
What's this? Can't fly or climb
I just could float, hope I don't die
Meteors comin' my way, weavin', gotta go straight
Ain't a criminal, crime don't pay
Seen a crazy look, Eggman's face

Don't let it hit you, move
Don't let it hit you, move
Don't let it hit you, move, move
Don't let it hit you, move

Don't let it get your groove
Don't let it get your groove
Don't let it get your groove, groove
Don't let it get your groove

Don't let it hit you, move
Don't let it hit you, move
Don't let it hit you, move, move
Don't let it hit you, move

Don't let it get your groove
Don't let it get your groove
Don't let it get your groove, groove
Don't let it get your groove
