"Supporting Me"

I'm gonna be desperate

Never lose... hurry... never lose... hurry...

I believe in my future, farewell to the shadow
It was my place to live, but now I need your hand
Lead me out with your light, I have breathed in
The disgusting air of darkness, but I will never lose out

To the pressure, everything is like
An illusion, I'll be losing you
Before long

I'll never lose my confidence

I know you are supporting me...
Supporting me...
Supporting me...
I'll be losing you before long
