Alive under water  
I breathe into straws  
I swim under water  
A swimming horse  
Alone under water  
A walk under water  
I sleep under water at night  
I cry under water  
I fly under water  
I'm safe under water at night

I swim i swim i am

I walk under water  
I've made up my mind  
I will walk under water until i shine  
To be like another  
Turn water to wine  
What i see of the surface  
Is what i read between the lines

I tried to kill myself  
Now i shine

Awake under water  
I will stay under water  
'till i drop i'm alive  
I'm alone at last

I tried to kill myself  
Now i shine
