Oh death, Go breathe your breaths.
Oh death, Go breathe your breaths.
Cross paths with life.
(I'm cutting straight to the center of everything.)
Suffocate every element of it's existence.
Oh death, Go breathe your breaths.
Oh death, Go breathe your breaths
(I'm cutting straight to the center of everything.)
Cross paths with life, breathing into it's body.
Hold the body.
Paint the lines.
Hold the body.
Paint the lines.
Hold the body.
Paint the lines.
(My God, I'm cutting straight to the center of everything
I thought I ever knew)
Oh, death.
Oh, death: The wave that floods the earth.
