My captive heart
My willing soul
My captive heart
My willing soul

I see him walkin', I sense the danger
I hear his voice and my heart stops
He wears a face of the night
Ooh, the perfect stranger
And I'm fallin', ready or not

I don't think about it
Who knows where the wind blows
No doubt about it
I'll go where he goes

My captive heart
(He holds the key to these emotions)
My willing soul
(Let me drown in this ocean)
And I carry the flame and I play my part
As long as he's callin', callin', my captive heart

Fire burns, so I've been told
But I like the way it feels
He has a wild passion
That drives away the cold
And I know his touch is real

Don't think about it
He leads [Incomprehensible]
No doubt about it
I'll go where he goes

My captive heart
(He holds the key to these emotions)
My willing soul
(Let me drown in this ocean)
And I carry the flame like I did it from the start
As long as he's callin', callin', my captive heart

Don't think about it

Who knows where the wind blows
No doubt about it
I'll go where he goes

(My love)
He holds the key to these emotions
Let me drown in this ocean
And I played my part
As long as he's callin', callin'
(My willing soul)

My captive heart
(He holds the key to these emotions)
My willing soul
(Let me drown in this ocean)
And I carry the flame and I play my part
As long as he's callin', callin', my captive heart

Set me free
(He holds the key to these emotions)
Set me free
(Let me drown in this ocean)
And I play my part

My captive heart
My willing soul
My captive heart
