Sometimes i feel like i'm standing on a rock
and you were on the opposite side
and sometimes i feel like
i should grab you and pull you closer
what should i do to make this dream come true

(chorus) i will wish upon a star to make this dream
come true (to make this dream come true)
a wish upon a star is all i need to make you mine
a wish upon a star is all i need
oh, a wish upon a star

sometimes its hard to look away from you
but when i'm dreaming its so easy
cause when i'm dreaming you're always mines
and this one time i dreamt that we were racing
and than i said
I'll race you to the bottom of my heart

CHORUS
