You spend you money You cant get no satisfaction
You play it right so you can get the right reaction
It wont be long my darling
Pick up the phone nobodies on it
Where are your friends now baby?
How are the ones supposed to be there for you
You

When your falling down, the worlds not spinning
around you
You

When your falling down, the worlds not all about you
You

When your falling down, you know I'll be around
When your falling down, falling down

Without a place when you look into the mirror
Which is blurry but the lies are getting clearer
Your eyes are fixed

Your smile is an elastic

You gave me roses but their all just made of plastic
It wont be long my darling

Pick up the phone nobodies on it
Where are your friends now baby?

How are the ones supposed to be there for you
You

When your falling down, the world not spinning around
you

You

When your falling down, the worlds not all about you
You

When your falling down, you know I'll be around
When your falling down, falling down

Smile for the camera everybodys looking at you
Smile for the camera cause there all about to trash you
Smile for the camera, camera, camera

Smile for the camera, whos gonna catch ya

You, You

You

You

When your falling down, the worlds not spinning
around you

You
When your falling down, the worlds not all about you
You
When your falling down, you know I'll be around
When falling down, Falling down
Smile for the camera everybody looking at you
Smile for the camera cause there all about to trashy
