We talk on the phone everynight
I'm losin' sleep
And when we hang up, you're in my dreams
You're everywhere I go so it seems
And when I get around you I say stupid things
and things I don't mean

I'm falling head first over you (over you)
Fallin' head first over you
I'm floating above now just like a ballon'
I'm slippin..... ?
I'm fallin' for you, I'm fallin' for you

Boy give me a sign, show me the light
Cause i'mma hang on to every word you say
And my cover's blownd, it's not okay
Cause I'm getting feelings that i just can't shake, do
you feel the same way?

I'm falling head first over you (over you)
Fallin' head first over you
I'm floating above now just like a ballon'
I'm slippin..... ?
I'm fallin' for you, I'm fallin' for you, the things that you
do, I'm fallin' for you, I'm fallin' for you, the things that
you do (head first, head first)

I'm falling head first over you (over you)
Fallin' head first over you
I'm floating above now just like a ballon'
I'm slippin..... ?

I'm falling head first over you (over you)
Fallin' head first over you
I'm floating above now just like a ballon'
I'm slippin..... ?
I'm falling for you, i'm falling for you.
