If time came to an end today  
And we left too many things to say  
If we could turn it back  
What would we want to change  
And now's the time to take a chance  
Come on, we gotta make a stand  
What if we gotta lose  
The choice is in our hands

And we can find a way  
To do anything, if we try to

Live like there's no tomorrow  
'Cause all we have is here, right now  
Love like it's all that we know  
The only chance that we ever found  
Believe in what we feel inside  
Believe and it will never die  
Don't never let this life pass us by  
Live like there's no tomorrow

If there never was a night, a day  
And memories could fade away  
Then there'd be  
Nothing left, but the dreams we made  
Take a leap in faith and hope you fly  
Feel what it's like to be alive  
Give it all that we've got  
And lay it all on the line

And we can find a way  
To do anything, if we try to

Live like there's no tomorrow  
'Cause all we have is here, right now  
Love like it's all that we know  
The only chance that we ever found  
Believe in what we feel inside  
Believe and it will never die  
Don't never let this life pass us by  
Live like there's no tomorrow

Be here by my side  
We'll do this together  
Just you and me  
Nothing is impossible  
Nothing is impossible

Live like there's no tomorrow  
'Cause all we have is here, right now  
Love like it's all that we know  
The only chance that we ever found  
Believe in what we feel inside  
Believe and it will never die  
Don't never let this life pass us by  
Live like there's no tomorrow, oh

Live like there's no tomorrow  
'Cause all we have is here, right now  
Love like it's all the we know  
The only chance that we ever found  
Believe in what we feel inside  
Believe and it will never die
