Citylights
Light up the citynights
We will always call this place
Our home
Our home

It'll never be perfect here
Not today or in twenty-something years

When warmer days
Seem just too far away
We hold on til' the cold's gone
So on and so on

It'll never be perfect here
Not today or in twenty-something years
It'll never be perfect here
Not today or in twenty-something years

When warmer days
Seem just too far away
We hold on til' the cold's gone
So on and so on

Citylights
Light up the citynights

This is home

It'll never be perfect here
Not today or in twenty-something years
It'll never be perfect here
Not today or in twenty-something years
