You keep sending me all these things
I'm learning how to smile
You keep sending me all these things
I think I'll stay a while

Tried to talk to you in my dream
You looked at me and smiled
Your smile said to me
I'll have to wait a while
I have to wait a while

Hold on You opened my eyes today
Hold on Another surprise

You keep giving me all these things
I see them in your smile
You keep giving me all these things
I think I'll stay a while

I guess I'll stay a while
