Snake bite, she gimme a snake bite  
Snake bite, she gimme a snake bite  
Snake bite, she gimme a snake bite  
Snake bite, she gimme a snake bite  
She was a little bit long and a little bit lean  
That's the kind of woman make a man feel mean  
She was the moon at night  
The only light  
That would ever brighten my life

She was another man's wife  
She was another man's wife  
She was another man's wife  
She was another man's wife  
I'm gonna turn his picture to the wall  
With a little bit of boogie, that ain't all  
Hang his body on the door  
With aching heart and a little bit more

She was another man's wife  
She was another man's wife  
Snake bite, she gimme a snake bite  
Snake bite, she gimme a snake bite  
Snake bite, she gimme a snake bite  
Snake bite, she gimme a snake bite  
She was a little bit long and a little bit lean  
That's the kind of woman make a man feel mean  
She gimme a snake bite  
She gimme a snake bite
