Sense Field Building you know I won't just love anything  
you know I won't just love everything our lives are  
building love is building, baby... love is building, hate is  
a building torn down you know we didn't know what to  
think, you knew all along we would work it all out,  
baby... love is building, you know we didn't know what  
to believe our lives are building hate is a building  
burned down love is building WERE YOU IN DOUBT OF A  
NEW DAY, YOU LIFTED OF A NEW DAY MY DOUBT love is  
building, building, building love is building love is  
building building. BUILDING...BUILDING...BUILDING
