So let me take this medicine
To quench my love for violent things
My swan song will
Be like a bullet laced in anger
As the razor cuts the soft spot on your heel

Each breath
Is getting slower
This war
Is getting harder
To fight by myself

Sick waves
Of bitter fashion
Rip down
This shield that I have
Tears rain from above

Do you see
The life I lead?

So follow me into the sun
And I will bleed
The poisons dry

These bayonet scars
Never cease
To blind the light shead from the beast
And all we do is hate

Eyes shut
From constant visions
Angels
Are rendered useless
Good has lost it's heart

Do you see
The life I lead?

So follow me into the sun
And I will bleed
The posions dry

For you
For you
(For you)
(For you)
(For you)

Bite to break skin
Don't give the secret
My stoic face
Bleeding with passion
The Phoenix will die
Inside the firestorm
I am the son
Follow my footsteps.

Bite to break skin
Don't give the secret
My stoic face
Bleeding with passion
The Phoenix will die
Inside the firestorm
I am the son
Follow my footsteps.
