I feel the city breathe at night
Beneath the stars and meteor lights
And I've got nothing to lose

Drink up, drink up
Drink up the loneliness
Drink up, drink up
Drink up the loneliness

The streets outside, they burn with light
But I am dead on the inside
I think these pills are to blame

Drink up, drink up
Drink up the loneliness
Drink up, drink up
Drink up the loneliness

And I got romantic ideas
But they're not meant for you
And my best feeling, black roses
To show that our love is through

I hope the fire licks my lips
And pulls me close against the wrist
This town will go down in flames

Drink up, drink up
Drink up the loneliness
Drink up, drink up
Drink up the loneliness

And I've got romantic ideas
But they're not meant for you
And my best feeling, black roses
To show that our love is through

Like a broken mirror, they're pieces of me
Like a broken mirror, they're pieces of me
They're pieces of me
They're pieces of me now

Drink up, drink up
Drink up the loneliness
Drink up, drink up
Drink up the my lonely
Drink up the my lonely

Drink up
Drink up the loneliness
