Follow your bliss
It reads on my chest
I know I got it tattooed for a reason
Why can't I just hold it true?

'Cause I'm still crashing all the funerals
Of these people that I never knew (yeah)

I'm stuck in a coma
Stuck in a neverending sleep
And some day I will wake up
And realize I made up everything

I shut the door and turn all the lights out
And listen to all the songs that the night shouts
They go something just like this

So
Go fill up a glass with tonic rocks and gin
And drink yourself to happiness

I'm stuck in a coma
Stuck in a neverending sleep
And some day I will wake up
And realize I made up everything

We can all hang ourselves
(From gold chandeliers)
And drink good bye
To all (all the pain and fears)
Loose lips have sunk this ship
(To a shallow grave)
Washed upon the rocks

(I won't be saved)
(I won't be saved)

I'm stuck in a coma
Stuck in a neverending sleep
And some day I will wake up
And realize I gave up everything

I won't be saved
(So follow your bliss, it reads on my chest)
I won't be saved
(I know I got it tattooed for a reason)
I won't be saved
(I shut the door and turn all the lights out)
I won't be saved
(I listen to all the songs that the night shouts)
