so im down with all this pain that is kept
like a boxer whos been knocked down and lost his step
the doctor said (Doctor said)
im sorry son (im sorry son)
you cant win, you cant win this one

ive been fighting life on my knees (Over and Over)
im standing up upon the ropes so i can see

so im sorry i am such a mess
and i promise i will do my best
ive purched myself of all this pain
biting my teeth like teacher pain

ive been fighting life on my knees (Over and Over)
im standing up upon the ropes so i can see
ive been fighting life on my knees (Over and Over)
im standing up upon the ropes so i can see

theres on thing that i know
so where i lost my home (ive been wasting all my time)
so im standing up and im screaming out
there is love in sight (oh there is love)

ive been fighting life on my knees (Over and Over)
im standing up upon the ropes so i can see
ive been fighting life on my knees (Over and Over)
im standing up upon the ropes so i can see
im standing up upon the ropes
and finally i am free to breath
and finally able to breath
and finally am able to see
up on the ropes
