I blame myself  
For never saying anything  
You're dead to me  
But I'm the fool who still believes

That one day you'll actually see  
That you missed out on everything  
My innocence, you devoured  
You fuckin' coward

I'm finding faith in myself tonight  
And finally, I got it right  
I must forgive you to move on  
It's my only choice

'Cause you'll never come  
To fill up all the cracks  
In this foundation

You're the fear, all the panic and shame  
I'm afraid I'll be like you one day  
I'd love to hear the things you tell yourself  
To pass the blame

Your own daughter barely knows your face  
You set the fire and then walked away  
Leaving everyone to clean  
The mess that you have made

Everything you passed down to me  
The stiff right hand, this fuckin' disease  
What do I get for being your son  
Nothing

I'm finding faith in myself tonight  
And finally, I got it right  
I must forgive you to move on  
It's my only choice

'Cause you'll never come  
To fill up all the cracks  
In this foundation

Jesus Christ  
Look what you've done  
Abandoning everyone  
That you should love  
You fuckin' failed me

All that I have left  
Is a choice to forgive or forget  
Hold your hand to the fire  
You fuckin' liar

I'm finding faith in myself tonight  
And finally, I got it right  
I must forgive you to move on  
It's my only choice

'Cause you'll never come  
To fill up all the cracks  
In this foundation
