"So the light now is my weapon
Like a bush dried and withered in the sun
With a spark I'll go up in flames
I'd lay my guts down but they're too small to see
It's kinda cute how I pretend to be
Everything but the instrument I am.

peace or happiness
So "let it enfold you"

A birth to life is what I'm after
My first name won't be my last one
Let the light just drip into your eyes

So it's true my words are contrived
I tell lies just to get into your mind
I'm as fake as a widow's smile
This mask of glass is what I choose to wear
So I won't ever have the need to bear
To tell the truth to anyone but me

peace or happiness
So "let it enfold you"

A birth to life is what I am after
My first name won't be my last one
Let the light just drip into your eyes
And I am dead, your eyes are light

I'm just a bad actor stuck with a shitty script
All of my lines are cheap and the cast is weak
There was no music for the first time I got kissed
There was no femme fatal my mistress wasn't rich
So I've been formatted to fit your TV screen
The film went straight to tape
I'll bow out quietly

Please do this now I beg
Duct tape my arms and legs
Throw me into the sea
Please save me, please save me

Now watch the waves eat me
Setting my cold heart free
I'll wash the shore in weeks
You cant save me now
