Come and see
The religion I have lost in recovery,
In recovery
And what you need from me isn't playing a guitar,
Or sympathy
It's my honest heart,
In pursuit of yours.

How long should I wait for words to come
I may have done us in for good
Which vow will I break before I'm done
God, I may have done us in for good,
I may have done us in for good

Honestly, I have made a few mistakes
But I'm coming clean,
I'm coming clean
And with recovery,
I replace a broken vow and a growing seed with my
honest heart.

How long should I wait for words to come
I may have done us in for good
Which vow will I break before I'm done
God, I may have done us in for good
I may have done us in for good

Just pay attention to every thought
Pay attention to every thought
We pray for revival
I let go, I let go
All I want is your forgiveness
Say you'll stay

How long should I wait for words to come
I may have done us in for good
Which vow will I break before I'm done
God, I may have done us in for good
I may have done us in for good
