Like roses wither so does hope  
As we approach our final fate  
A new dawn of man?  
Oh no, can't you feel, the End is on it's way...  
It's all over said and done, haven't you heard?  
We're living our last days in this world  
Oh. Give Up Hope, do it now  
The world is coming Grumbling Down  
We have passed  
The point of No Return by far  
And swept away the last sheds of hope  
A new dawn of man?  
On no can't you feel, the End is on it's way...  
It's all over, said and done, haven't you heard?  
We're living our last days on this earth  
Oh, your days are over!  
Your world is finished!  
Down down down down  
Thy kingdom gone  
Down down down down  
My kingdom come  
This is it  
This is the End  
Free at last
