Pale brain is pressed in this box.
Thoughts are tangled - you are waiting for something.
Analysis. Self-analysis. Analysis surroundings and
environment.
They think that you are not you.

Reason & thoughts of another generation.
Cosmic dimension.
Regeneration & needless fuss.

Herdness. Grayness & stamp - all.
All the rest - are in search.
Look into the sky - novelty & purity.
Ways in your maze.

Tests on a standard people.
Aprobation of your theories & guesses.
Analysis. Self-analysis. Analysis surroundings and
environment.
They think that you are not you.

Judgements & theories.
Draw parallels. Look in general.
Extract the truths & break into small pieces.
Thoughts beat violently into the temples.
