Dismal night  
Cold october rain  
Your blood on the ground  
Turns into dirty puddles

No pain  
Lying in your sticky blood  
And your fecal masses running out

Steel is cold  
Pale reflection's moon on the sword  
Penetrating in hot flesh  
It makes her cool

Steel without soul  
But in cruel bloody hands  
That presses cold sword  
Somebody's life takes

Hands press cold steel  
This weapon is lethal  
Steel comes alive in hot blood  
Death gives life to metal

Sword back to life in your flesh  
Your body making dead  
By pain & horror your thirst  
Soulless steel quenches

It's your last revenge  
Body's pungent stench.
