"Festering Within"

Spreading your blood
Pumping through your veins
Deadly infection
Festering within

Bile secreting from your liver
Toxins spreading through your innards
Mass infection
Pus collection
Struggle to fight
Inner corrosion
Agonizing pain

Increasing strength
Declining death approaching
Fall to sickness
Fall to sepsis
Surrender your life to nothingness

Lungs filled with blood
Congested with pus
Your pulse is growing dim
Finished now...
Festering within
